● Electronic targets

Shooting will be on electronic targets. For the musket targets shots outside of the five (5) ring will not be recorded. If a delivered shot, which was shot through the measurement frame would not be visible on the monitor, the Range Officer must be informed. This is then recorded in the competition records. Each shot through the measurement frame is registered in the system electronics. In addition two targets per shooter and competition are used for the registration of cross shots. Function or oil shots are to be shot at the rounded, marked white wooden beams.

On the screen all 13 shots are visible. The best 10 shots are highlighted in darker colour. Starting with shot No. 11 and up till shot 13 the best 10 shots will be added up on the screen.
