7.2 GUN LICENSE

Owners of an European Firearms Passport may import their guns without an auxiliary permission to Germany. *You don't have to declare air guns and the proper ammunition at all, if they conform to the international standard.*

All national federations who do not belong to the European Union have to declare their guns and ammunition for small and big bore rifles and pistols.

**Please register online at: <http://entry.issf-sports.info>
Only the owners of online registered guns will receive the below mentioned general permission.**

After **online registration of** your guns you will receive a general permission from the district office of Munich. This exceptional rule is valid from July 8th to August 18th 2010. Upon entry to Germany participants must show a copy of this general disposition and the confirmation of participation by name from the Organising Committee.

All guns must be submitted at the first arrival on the shooting range to the Gun Inspection Department for inspection before storing in the armory to verify the conformity of the general permission with the imported guns. This check is for the gun legislation only and not for the approval of the guns according to the competition rules.

The charge for an approved guns and ammunition declaration is 20 Euro per federation.

It is recommended to all delegations to carry the list of all firearms and ammunition with themselves, to be presented to customs or border police upon request together with the invitation. During your stay in Germany/Munich **all guns and ammunition** must be stored in the armory on the shooting range (also air guns and ammunition).

8 CUSTOM FORMALITIES

All national federations without the European firearms passport have to be in possession of the **approved** gun importation form, certified by the German authorities. For those who arrive at the Munich airport, please make sure that you carry along a copy of your certified gun form.

The **original documents** will be **deposited at the customs** where **you must pick them** up, before leaving the customs area.

Please note: To import air guns without an auxiliary permission, they need to have the international embossing / stamping "F".
