

Ongoing preparations for ISSF World Shooting Championship 2010 in Munich and special training opportunities for WCH-shooting teams and shooters

The 50th ISSF World Shooting Championship 2010 will take place at the Olympic Shooting Range in Munich-Hochbrueck / GER from July 29th to August 11th. The German Shooting Sport Federation as organiser of this major anniversary event expects the participation of the world-best shooters from more than 100 different nations.

The German Shooting Sport Federation and its 20 regional shooting federations provide special training opportunities for WCH-shooting teams and shooters who want to train in Germany and want to get used to a possible time difference and the climate situation in Germany right before the World Championship starts. These shooters are now able to book a training stay in the National Olympic Training Centre of the German Shooting Sport Federation in Wiesbaden or in other Regional Training Centres in Germany. All shooting sport facilities provide international standard.

Please find attached the overview of available training centres with additional information and contact details. Booking and reservation must be made directly at the training centre of your choice!
